Celebrate Christmas, Support Local!

As the holiday season approaches, let's celebrate the spirit of Christmas by supporting our local businesses. The Wahpeton Breckenridge Area Chamber of Commerce has been a pillar of support, fostering collaboration and resilience within our community all throughout the year.

This festive season let's prioritize shopping local. Your support for our fellow businesses not only adds to the joy of the season but also strengthens our community ties. Don't forget to make your shopping even easier by purchasing Chamber Bucks for employees, teachers, coaches, or those tough-to-shop-for individuals.

Join us in making this Christmas memorable by choosing local for your gifts and festivities.

Wishing you a Merry Christmas and a prosperous New Year!

Katie Rauber

Join our Team

We are currently looking to add more ambassadors to our group. The Twin Town Ambassadors meet the 2nd Tuesday of each month at 8:30 am at the chamber office. Being an ambassador is a great way to learn more about what is happening in the businesses in our community.

If you would like to join this fun, energetic group and help us celebrate the milestones of our business community, please feel free to contact us and we'd be happy to give you more information.

WAHPETON BRECKENRIDGE

CHAMBER BUCKS

shop local. eat local. spend local. enjoy local

The Wahpeton Breckenridge Chamber of Commerce is happy to offer the Chamber Bucks Program to the Twin Town Communities. The Chamber Bucks Program is designed to keep dollars local. They are great as employee incentives/rewards, giveaways or gifts from friends and family. Anyone can buy Chamber Bucks. They can be purchased at the Wahpeton Breckenridge Chamber of Commerce office in \$5, \$10 and \$20 denominations and used for goods and services at participating businesses in the Twin Towns.

WHERE CAN I USE CHAMBER BUCKS?

Chamber Bucks can be used for products and services at participating chamber member businesses in Wahpeton and Breckenridge. Please scan the QR Code below to view all participating members.

HOW DO I USE CHAMBER BUCKS?

Customers will redeem Chamber Bucks at participating businesses toward a single purchase of equal or greater value. They are not redeemable for cash. After you accept a valid Chamber Buck at your place of business from a customer for goods and services, you may go ahead and cash the Chamber Bucks just as you would any check. This is an exciting change to our program.

WHERE CAN I BUY CHAMBER BUCKS?

Chamber Bucks can be purchased at the Wahpeton Breckenridge Chamber of Commerce office during regular business hours.

HOW DO I BECOME A PARTICIPATING BUSINESS?

To become a participating business, you need to be a member in good standing of the Wahpeton Breckenridge Chamber of Commerce. There is no charge for being a participating business. This program is offered as a benefit of your chamber membership.

Business Spotlights

The Wahpeton Breckenridge Chamber
Ambassadors would like to thank BMO
for making it happen!

The Chamber and the Twin Town
Ambassadors had the privilege to visit BMO
in Breckenridge.

The integration of BMO with Bank of the
West is now successfully completed,
representing a significant milestone. A
remarkable effort from 3000 members of
Team BMO, showcasing exceptional logistics,
planning, and execution, welcomed 2 million
new customers into the BMO Family. This
achievement is incredibly exciting, as it
means they are now fully equipped to serve
customers across 32 states nationwide.
Thank you, BMO, for making it happen.

We're thrilled to have you here!

THE LABOR MARKET INFORMATION PLAYBOOK: HOW TO GET IN THE GAME BY EXPLORING FUNDAMENTALS & STRATEGIES

DATA • IS • POWER

Whether you work in the private, public, or nonprofit sector, are involved in human resource decisions, or make decisions involving an entire organization, city or region, the time is now to get in the game! Join our subject matter experts as they dive into the data and materials and give you a play-by-play of how you can turn information into insights to optimize your own decision-making!

We invite you to discover how you can:

- Understand the fundamentals of Labor Market information
- Leverage NDLMi to set policy and provide support
- Engage Labor Market Professionals to enhance your experience

Join host Patrick Bertagnolli, Executive Director of Job Service North Dakota as he introduces you to our panel of community leaders from across the state as they explore the power of Labor Market Information.

**Join us on December 12, 2023, from 10 a.m. to 11:15 a.m.
Central Time for this FREE Labor Market Information
Webinar. We hope to see you there!**

This webinar is certified for 1.25 SHRM Recertification credits by ND SHRM - a statewide organization focused on connecting business, leadership, and HR professionals together to develop people and create better workplaces for all.

MESC
OFFICE OF MANUFACTURING AND ENERGY SUPPLY CHAINS

Extended Product System Rebate Program

The Office of Manufacturing and Energy Supply Chains (MESC) is providing rebates to qualified entities that purchased & installed or newly incorporated an extended product system. Extended Product Systems (EPS) are industrial systems that are combinations of electric motors, electronic control, and driven load (e.g., pumps, fans, and compressors).

Incentivizing the Clean Energy Transition

The rebate program aims to help reduce the cost of making energy efficient upgrades. The types of businesses that are most likely to benefit are ones with large motor and pump driven loads, especially ones that have no load control technology and equipment. These entities could include manufacturing facilities that use air compressors, fans, and pumps for industrial processes or commercial and multifamily buildings with large HVAC-related motors.

Who is Eligible?

There are two distinct classes of eligible entities for the EPS program. The first includes entities that purchased a qualifying EPS and completed its installation between October 1, 2021, and September 30, 2023. The second includes owners

of equipment that was redesigned to newly incorporate an EPS if that upgrade was completed between January 1, 2021, and December 31, 2022. For both classes, the EPS must be installed within the United States or its territories and meet the technical and efficiency specifications. Potential applicants are strongly encouraged to review the program's full guidelines to determine their eligibility.

How it Works

The total value of a rebate depends on the power rating of the EPS. The rebate is calculated by adding together the nameplate rated horsepower of the motor and the nameplate rated horsepower of the electronic control, then multiplying that sum by \$25. For example, if the motor has a nameplate rating of 7 horsepower and the electronic control has a nameplate rating of 10 horsepower, the rebate would be $\$25 \times (10 + 7) = \425 . The total amount any single entity can receive across all rebates is capped, by statute, at \$25,000 per calendar year. MESC will solicit applications until funds are expended. Applicants should assume that rebates will be considered taxable income, and they will receive a 1099 Form.

Connect with MESC

Scan our QR code to visit MESC's Rebate Portal for more information.

Our team can be contacted at DOERebates@icf.com if you have any questions.

DOE's Office of Manufacturing and Energy Supply Chains website:

MESC
OFFICE OF MANUFACTURING AND ENERGY SUPPLY CHAINS

Energy Efficient Transformer Rebate Program

The Office of Manufacturing and Energy Supply Chains (MESC) is providing rebates for energy efficient transformers. The rebate program aims to help qualified entities—such as certain domestic manufacturers, utilities, hospitals, schools, and other operators—replace qualified energy inefficient transformers with qualified energy efficient transformers. The application is free and MESC will solicit applications for rebates until the program deadline of December 8, 2023, or until funds are expended, whichever comes first.

Incentivizing the Clean Energy Transition

The total value of a rebate is based on the energy efficiency gain. It is equal to the difference in core losses between the inefficient transformer and the efficient transformer multiplied by \$2. For example, if the inefficient transformer had a core loss of 1,000 watts (W) and the replacement transformer has a core loss of 750 W, the rebate would be $\$2 \times (1,000 - 750) = \500 . Applicants are *strongly* encouraged to apply for as many rebates as they qualify for, and there is no cap on the amount of funds a single entity may receive. Recipients should assume that rebates will be considered taxable income, and they will receive a 1099 Form.

Connect with MESC

Scan our QR code to visit MESC's Rebate Portal for more information.

Our team can be contacted at DOERebates@icf.com if you have any questions.

DOE's Office of Manufacturing and Energy Supply Chains website:
<https://www.energy.gov/mesc/office-manufacturing-and-energy-supply-chains>

Strengthening Supply Chains

Acknowledging that current supply chain constraints potentially complicate the purchase and deployment of an energy efficient transformer before the program deadline, entities may apply for a rebate for a transformer that has yet to have been delivered or installed, provided they submit the purchase order, other required supporting documentation, and meet all requirements of the program. Rebates are also available for transformers installed prior to the launch of the program, so long as technical requirements are met, and all required documentation is submitted.

What is an Efficient Transformer?

For the purposes of this rebate program, an energy efficient transformer is defined as any transformer that meets the definition provided in Sec. 1006(a)(1) of the Energy Act of 2020. This is different from, and should not be confused with, the Department's proposed 2022 Energy Conservation Standards for Distribution Transformers.
